ADDITIVES AND COLORANTS TO CONCRETE

10	 <p>сверхпрочная</p>	<p>REINFORCING FIBER HLV-54, 600G Fiber is a reinforcement additive to the grout enabling significant increase in the strength of the final product and times as much service life of concrete slabs.</p> <p>The reinforcement additive (1 package) allows making 7 to 15 m2 of finished concrete surfacing, moreover, the final product will have high resistance to loads and high scuff resistance. All the strength characteristics of the concrete surfacing will increase considerably.</p>	3,4 euro
11	 <p>сверхпрочная</p>	<p>REINFORCING FIBER HLV-52, 300G</p> <p>The reinforcement additive (1 package) allows making 7 to 15 m2 of finished concrete surfacing, moreover, the final product will have high resistance to loads and high scuff resistance. All the strength characteristics of the concrete surfacing will increase considerably.</p> <p>This additive was developed especially for reinforcing garden paths and grounds; it perfectly suits to aggressive environments. It is advisable to apply HLV-52 in work with the stencil form "Garden Path", "Round Stones", "Kerb Stone".</p>	1,7 euro
13		<p>REINFORCING FIBER HLV-53, 300G.</p> <p>Fiber is a reinforcement additive to the grout enabling significant increase in the strength of the final product and times as much service life of concrete slabs.</p>	1,7 euro
14		<p>REINFORCING FIBER HLV-53, 600G</p> <p>Fiber is a reinforcement additive to the grout enabling significant increase in the strength of the final product and times as much service life of concrete slabs.</p> <p>The reinforcement additive (1 package) allows making 7 to 15 m2 of finished concrete surfacing, moreover, the final product will have high resistance to loads and high scuff resistance. All the strength characteristics of the concrete surfacing will increase considerably.</p>	3,4 euro
15	 <p>для армирования бетона</p>	<p>АРМИРУЮЩЕЕ ФИБРОВОЛОКНО HLV-52, 600 гр. Добавка для армирования бетона HLV-52 Hormusend™ защищает от разрушения края соединений в бетонных плитах покрытий и сборных ж/б конструкциях. Волокна фибры равномерно распределяются волокнам по всему объему бетонного изделия. Техническое описание волокон: Состав: полипропиленовое волокно 12 мм. Диаметр: 18 мкм. Плотность 0,91 г/см³. Упругость (Модуль Юнга) 4158 МПа. Температура размягчения 160°С.</p>	3,4 euro
16	 <p>для армирования бетона</p>	<p>REINFORCING FIBER HLV-52, 300G</p> <p>The reinforcement additive (1 package) allows making 7 to 15 m2 of finished concrete surfacing, moreover, the final product will have high resistance to loads and high scuff resistance. All the strength characteristics of the concrete surfacing will increase considerably.</p> <p>Technical description of the fibers: Composition: polypropylene fiber 12 mm. Diameter: 18 um. Density 0.91 g / cm³. The elasticity (Young's modulus) 4158 MPa. The softening temperature of 160 ° C.</p>	1,7 euro
17		<p>LUBRICANT FOR FORMS AND FORMWORK HLV-37, 200G</p> <p>The forming oil is a very useful product for making a garden path, which simplifies the process of casting and prolongs useful life of the framework considerably.</p> <p>Our forming oil is sold concentrated, in 250 g bottle. Diluted with water, the grout is enough for several hundreds of oiling procedures. This means that one or two bottles will be quite enough. You may buy the goods at the best price; the process of making a path will be much simplified and many times paid back.</p>	0,37 euro
18		<p>STRENGTHENING ADDITIVE TO MORTAR (PLASTICIZER) HLV-15, 2 KG</p> <p>The plasticizer represents a mixture for the grout, which will make the cement structure completely different and enhance its quality characteristics. Using this additive in the grout, not only your product, but the whole concreting process will be many times improved.</p> <p>This Plasticizer was created especially for our forms. Now making garden paths and kerbs becomes much easier! The additive can be easily applied according to the instructions on the packing. Even if this is your first casting experience, you will find it simple and clear.</p>	1,06 euro
